WE CARE ABOUT YOUR EYES!

Let's face it, you are more likely to follow the prescribed usage schedule for your contact lenses when you have an on-hand supply at the ready. This will help reduce the likelihood of wearing your lenses longer than prescribed and lowers the chances of complications often associated with prolonged wear. Additionally, you should consider a pair of sunglasses to protect your eyes from UV radiation and have a spare pair of eyeglasses to periodically give your eyes a rest. Following these contact lens best practices helps ensure a lifetime of healthy eyes and great vision.
